

Specifications

Description

Adcraft's Adjustable Heated Plate Lowerator is a versatile item that can adjust to hold a variety of plate diameters for any occasion. Two field adjustable tubes enclosed in a stainless steel heated cabinet that can hold up to 80 plates at one time. The adjustable tubes can hold plates up to 8"-12" in diameter and will keep them pleasantly warm to help keep food hotter for a longer period of time. 4" casters allow for easy mobility and transporting. The clean stainless steel enclosed cabinet make this a perfect item for front and back of the house operations. This unit is backed by Adcraft's one year replace or repair warranty.

Construction

- Stainless steel frame and construction
- Two adjustable dish dispensing tubes with support rack that can hold plates 8"-12" in diameter
- 4" swivel casters for mobility
- Bakelite handle is cool-to-touch and allows for easy moving

Heated Cabinet

- Single heating element goes throughout the whole cabinet to keep the plates constantly warm while in use
- Interior fan motor circulates the warm air inside the cabinet
- Adjustable thermostat ranges from 85°F - 185°F

Tube Dispensers

- Two stainless steel tubes can hold up to 40 plates each at one time
- Tubes are adjustable and can hold plates from 8"-12" in diameter
- Special support design prevents the plates from sticking in the down position

Electrical
